

I have young children

Welcome to our pages for parents and carers of young children.

Our ethos at the Care Council is to make sure that children are safe and to ensure practitioners are working to the highest standards possible.

As the Care Council we set out the required and recommended qualifications for early years and child care workers.

Early years settings are regulated by Care and Social Services Inspectorate Wales (CSSIW). Staff in these settings should all have the correct qualifications which have been set by the Care Council.
