
Mapping pathways through QCF qualifications

Mapping of pathways through QCF qualifications

Mapping leaflets have been developed for a range of different service areas across adult, children and young people and early years and childcare settings. Each leaflet highlights the units from the 'optional' groups of QCF qualifications that are really key to specific service areas.

These will help learners, employers and assessors select relevant units to complete either to gain qualifications or as part of their continuing professional development (CPD).

Service areas

Adults

- > Adult Placement / Shared Lives
- > Complex Physical Care Needs; Complex Physical Care Needs (page 2)
- > Dementia
- > Domiciliary Services
- > Learning Disability; Learning Disability (page 2)
- > Management
- > Mental Health
- > Physical Disability
- > Reablement
- > Residential Services
- > Sensory Services
- > Social Care and Health Worker
